Is your organization, business, school, municipality or agency taking innovative approaches, advancing su
practices, generating economic growth or harnessing the power of creative partnerships? You could be one of
NYS's next award winners! Submit applications no later than **Friday, April 13, 2018**. Application materials and a
"Tips for Applicants" guide will be posted on DEC's website

Reduce Your Carbon Footprint with the Drawdown EcoChallenge

Drawdown EcoChallenge is a 21-day engagement program focused on carbon reduction. The Challenge take
April 4-25 and follows actions highlighted in Drawdown, a book based on meticulous research that maps,
measures, models, and describes solutions to global warming that already exists. Drawdown EcoChallenge is f
and open to the public. Participants can join an existing team, create a new one, or join the Community tea
Drawdown EcoChallenge provides tools and inspiration to turn intention into action and gives participants a fun
way and social way to think about and act on proven solutions to reverse global warming. Over eighty actio
within seven Challenge categories provide participants with diverse options to reduce carbon usage. Partic

Tool to Analyze Benefits of Green Infrastructure

The University of Maryland Environmental Finance Center recently published a report titled Holistically Analyzing the Benefits of Green Infrastructure. This document is intended to help smaller local governments, particularly those with MS4 stormwater programs, to ev

Summer Case Studies in Science Workshop

Presented by the National Center for Case Studies in Science Workshop, the annual summer workshop will be he from **May 21-25, 2018** at University at Buffalo, State University of New York. We have found the case study meth to be a powerful pedagogical technique for teaching science because it humanizes science and effectively ill scientific methodology and values. Moreover, since many of the cases are based on contemporary science problems featured in the news, the use of cases in the classroom makes science relevant to students today. Our fi workshop focuses on training science faculty (all levels) to teach with case studies, to write their own cases, and to assess their students' learning with cases. During the final two days of the workshop, all participants are requ teach a case before a student audience using a case they have developed during the workshop. In addition, participants are expected to produce a case study within six months of the workshop for our national, peer-reviewed case collection. Past workshops have included faculty from biology, chemistry, physics, astronomy, compute mathematics, geology, psychology, anthropology, nursing, science education, dentistry, engineering, medicine, other science-related disciplines. Registration Fee: $975.00 with space limited to 35. Detailed information abo workshop, including online registration is available at http://sciencecases.lib.buffalo.edu/cs/training/workshops/

LearnHowToBecome.org is a comprehensive website for students and other young professionals to find and explore resources related to a variety of careers. It includes sections on career types and paths, colleges, online education, and resource center.

KoiKiwi is an educational website

Humpback whale activity books – Learn about whales and their migration.

How can teachers get students to learn science from each other? – By communicating science, students can reinforce and help others learn.

Sky, Water, Earth: Self-paced online science activities for youth – A collection of free, online, self-paced activities that are designed for youth between the ages of 12-26 who are interested in the field of science.

High School Teacher's Guide for

Book Guide for On Bird Hill - Our free guide for grades K–2 turn this charming book into lessons in science, art, math, and literacy.

Edible Learning Lab curriculum allow kids (K-12) to manage the food production process from "Lab to Table".

PLT Online Professional Development for GreenSchools

Niagara Falls National Heritage Area supports important projects and programs throughout the National Heritage Area with the long-term goal of realizing community betterment. Grants are targeted to fund projects or programs that directly relate to the Niagara Falls National Heritage Area Management Plan.

World We Want Foundation is accepting applications from organizations that represent youth making positive social change in their communities and around the world. Grants of up to $5,000 will be awarded to youth between the ages of 13 and 25 who want to make a difference. Application deadline: Rolling.

The Coca-Cola Foundation partners with nonprofits that address priorities focusing on one of the following: Water Stewardship, Healthy and Active Lifestyles, Community Recycling and Education. Rolling deadlines.

Kresge Foundation's Healthy Environments grant program seeks to improve the health and well-being of vulnerable populations by making the places they live, learn, work and play safe and conducive to overall good health and health. Applications are currently being accepted for the Healthy Homes Initiatives, Transportation and the Built Environment Initiative and the Healthy Food Initiative. Application deadline: Rolling.

Cisco Global Impact Cash Grants support nonprofit organizations in the U.S. and worldwide that provide assistance to underserved populations and leverage technology solutions to improve the reach, efficiency, and impact of services. Take the Eligibility Quiz to see if you can apply.

Technical Assistance Grant Information – The New York State Department of Environmental Conservation (DEC) is continuously accepting applications for Technical Assistance Grants (TAGs). TAGs are a participation tool available to eligible community groups to increase public awareness and understanding of remedial activities taking pla in their community. Eligible community groups may apply to receive grants for up to $50,000 per site.

Home Depot Community Impact Grants – Grants, up to $5,000, are available to non-profit organizations and tax-exempt public service agencies in the U.S. that are using the power of volunteers to improve the physical health of their community. Grants are given in the form of The Home Depot gift cards for the purchase of tools, materials, or services.

The Pollination Project seeks to unleash goodness and expand compassion all over the world. We make daily seed grants to inspiring social change-makers who are committed to a world that works for all. We support passionate, committed people with an early-stage social change vision. We fund individuals and community groups, and you do not need to be a registered or established organization to apply.

Shell Foundation Grant Programs that restore critical ecosystems, address water, air quality research, preserve wetland and sponsor wetlands initiatives. Deadline: **Rolling**.

Fluor Foundation Grants Nonprofits and academic institutions. Projects promoting responsible stewardship of the environment and supports organizations that protect natural resources and habits through conservation, restoration and beautification, and environmental education. Deadline: **Rolling.**

Disney Conservation Fund: Rapid Response Grants Nonprofits and academic institutions located in the U.S. Projects which help animals during emergencies and natural disasters through its Rapid Response Fund. Deadline: **Rolling.**

Patagonia Environmental Grants – We are most interested in making grants to organizations that identify and work on the root causes of problems and that approach issues with a commitment to long-term change. Because we believe that the most direct path to real change is through building grassroots momentum, our funding focuses on organizations that create a strong base of citizen support. Deadlines: **April 30 and August 31.**

Greenhouse Production Head and Apprentice – Root Down Farm in Clarence NY is a 300+ member mixed vegetable CSA serving Greater Buffalo. We grow around 200 varieties of vegetables, melons, herbs and cut flowers in rotation on 10 acres. Our members come to the farm every week to pick up their share and use the upick fields. We offer spring, summer, and winter shares. Spring Shares start the first week of May and the Winter Share ends in February. We also sell to wholesale restaurant and grocery accounts. Previous farm experience is preferred, but is not mandatory.

Boat Stewards – The Chautauqua Lake Association is currently accepting applications for its 2018 Watercraft Inspection Program. The CLA is recruiting approximately 10 Boat Steward Positions within multiple regions across Chautauqua County (locations include Chautauqua Lake, Bear Lake, Cassadaga Lake and Lake Erie). Boat Stewards work at public boat launches, where they inspect boats for aquatic invasive species as part of an early detection/rapid response spread prevention effort. Stewards also educate boaters and visitors about aquatic invasive species (AIS) and how the general public can help slow the spread of AIS. Stewards may also be asked to participate in invasive species removal projects and educational events. Weekend work is required. Pay will be approximately 32 hours per week for 12 weeks. Deadline: **April 1**.

Invasive Species Management Stewards - Mid-late May to late August (14 weeks) at Niagara Region State Parks Jillian Harris FORCES Program Specialist – Niagara Region New York State Office of Parks, Recreation, and Historic Preservation Email: Jillian.Harris@parks.ny.gov Deadline: **April 6, 2018**.

Team Manager – Excelsior Conservation Corps (ECC) is looking for a to supervise seven staff and up to 50 members working on environmental stewardship projects in other parts of the state. The ECC, an AmeriCorps program, trains New York students between the ages of 18 and 25, to work on environmental stewardship projects that protect natural resources on public lands. Optional onsite housing

Buffalo LISC Executive Director – will provide the strategic direction and guidance for all aspects of LISC's future program vision and strategies in Buffalo.

Voice Buffalo Community Organizer – VOICE is faith-based community organizing project dedicated to building the civic capacity of ordinary people and equipping them to address social, racial, and economic justice issues through leadership development, negotiation, direct action and coalition building. VOICE is a multi-racial and multi-faith federation of over 50 member congregations and community organizations from Buffalo and Erie County. Our current organizing work includes creating alternatives to arrest and decreasing mass incarceration, creating greater workforce diversity and ownership of businesses from People of Color, addressing economic disparities, and working to improve the quality of life for Buffalo residents. Deadline: **Open until filled.**

Aquarium of Niagara Internships – Opportunities for high school or college students to work with marine mammals, fish, penguins and turtles. Certain requirements must be met.

Clean Air Coalition Internships – The Clean Air Coalition is a grassroots environmental health and justice organization based in Buffalo, New York. All internships include some operations and administrative work. The Clean Air Coalition's internships are ideal for highly motivated individuals looking to deepen and practice their skills engaging community leaders in solving environmental health and justice organizations.

Service Collaborative of Western New York Vista Positions/AmeriCorps – Opportunities for paid community involvement. Check out the available opportunities and eligibility. Some positions are summer only, so apply now.

Sustainable Initiatives Manager at RIT – Fifty percent of this job will be developing and implementing behavior change programming that will engage campus stakeholders in RIT's sustainability and conservation goals. The other fifty percent of this position will be providing administrative support to the senior sustainability advisor including management of budgets, communication platforms, coordination of events, logistics and meetings, student supervision, development of visual programming materials, and data collection for STARS and other sustainability reports.
